<u>Net Sales by Type of Customer</u>	<u>Three Months Ended</u> <u>June 30,</u>		<u>Increase</u> <u>(Decrease)</u>	<u>% Increase</u> <u>(Decrease)</u>
	<u>2020</u>	<u>2019</u>		
Consumer	\$ 2,944	\$ 2,419	\$ 525	21.7%
Tactical	251	165	86	52.1%
International	191	314	(123)	(39.2%)
Other	46	69	(23)	(33.3%)
Total	<u>\$ 3,432</u>	<u>\$ 2,967</u>	<u>\$ 465</u>	15.7%

Net sales in the three months ended June 30, 2020 increased by 15.7% to \$3,432, compared with \$2,967 in the three months ended June 30, 2019. Net sales to customers in the consumer market increased \$525 in the three months ended June 30, 2020, compared with the same period in 2019. This increase in net sales was due to primarily (a) \$242 increase in sales to existing brick and mortar retailers driven by line extensions, (b) \$345 increase in sales to existing e-commerce customers, (c) offset partially by a \$62 decrease in net sales on e-commerce platforms due to a change in the Company's e-commerce strategy in the three months ended June 30, 2020, compared with the same period in 2019.

Tactical net sales, which include tactical spray products, in the three months ended June 30, 2020 increased \$86, compared with the same period in 2019, primarily due to an increase in tactical private label net sales.

Sales to International customers decreased in the three months ended June 30, 2020, compared with the same period in 2019 due primarily to availability of product, which the company expects to rectify in the third quarter, as well as the impact of Covid-19 which caused some international customers to shut down for a period of time.

Sales to other types of customers decreased in the three months ended June 30, 2020, compared with the same period in 2019, primarily due to decreased business to business sales.

Cost of goods sold

Cost of goods in the three months ended June 30, 2019 was impacted by a \$124 provision for excess and obsolete inventory related to the Company's decision in 2019 to discontinue offering a line of less lethal munitions for sale to its law enforcement, corrections and military customers. In addition, cost of goods sold in the three months ended June 30, 2019 was impacted by \$38 of distribution and warehouse costs associated with the exited less lethal munitions products. Without these 2019 expenses, cost of goods sold increased in the three months ended June 30, 2020 to \$2,032, or 59.2% of net sales, compared with \$1,878 or 63.3% of net sales in the three months ended June 30, 2019. investments in the second quarter of 2019. Interest expense was \$22 and \$31 in the six months ended June 30, 2020 and, 2019, respectively, primarily related to decrease of the Company's debt, as well as decrease in LIBOR based interest rate in 2020.

Amortization of intangible assets

Amortization of intangible assets relates to the amortization of intangible assets associated with the Company's 2017 acquisitions.

Net income (loss)

Net income (loss) increased by \$2,035 to net income of \$573 in the six months ended June 30, 2020, compared with a net loss of \$1,462 in the six months ended June 30, 2019, due primarily to the factors noted above.

Liquidity and Capital Resources

Cash and cash equivalents increased by \$1,313 to \$1,620 at June 30, 2020, compared with \$307 at December 31, 2019. The Company's operating activities of continuing operations provided \$824 of cash in the six months ended June 30, 2020, compared with using \$651 in the six months ended June 30, 2019. In the six months ended June 30, 2020, depreciation and amortization, stock-based compensation and other non-cash charges totaled \$470. Changes in operating assets and liabilities used \$219 of cash due primarily to factors resulting from normal business conditions of the Company, including (1) higher accounts receivable and inventory due in part to higher net sales, and (2) higher net accounts payable and accrued liabilities due to timing of payments and inventory purchases.

The Company's capital expenditures in the six months ended June 30, 2020 were \$24, compared with \$60 in the six months ended June 30, 2019. At this time, the Company anticipates total fiscal 2020 capital expenditures will be approximately \$50 and will relate principally to production equipment and fixtures or capital expenditures relating to new product. The Company anticipates funding future capital expenditures from operating cash flow. There were no commitments for capital expenditures at June 30, 2020.

The Company has not declared or paid any cash dividends within the last two (2) fiscal years and does not anticipate paying any such dividends in the foreseeable future. The Company currently intends to retain all earnings for the operation and expansion of its business.

The Company has a \$1,500 credit agreement with a bank (the "Credit Agreement"), that is secured by substantially all the Company's assets and payable on demand. The Credit Agreement provides for monthly interest payments at a rate equal to LIBOR plus 1.75%. The interest rate was 1.93% at June 30, 2020. \$600 was drawn upon the Credit Agreement at June 30, 2020. The Company was in discussions with the bank to voluntarily reduce the size of this credit agreement, but no action has been taken as of this date.

In connection with its March 2017 acquisition, the Company entered into a 5% \$1,000 secured note payable to the seller of acquired business due March 22, 2022. The note is collateralized by all the Company's assets and is subordinated to the bank line of credit. \$393 was outstanding on this note payable at June 30, 2020.

On April 21, 2020, the Company was granted a loan (the "PPP Loan") from a bank in the amount of \$619 pursuant to the Paycheck Protection Program (the "PPP") under Division A, Title I of the CARES Act, which was enacted March 27, 2020. The PPP Loan matures on April 21, 2022 and bears interest

Mace Security International, Inc.

For the Three Months Ended June 30, 2020

at a rate of 1% per annum. Interest payments are deferred for six months and commence October 21, 2020. The Company may prepay the loan at any time prior to maturity with no prepayment penalties. The Company may only use funds from the PPP Loan for purposes specified in the CARES Act and related PPP rules, which include payroll costs, including group health care benefits, rent and utilities.

The Company intends to use the entire PPP Loan amount for qualifying expenditures. Under the terms of the PPP, certain amounts of the PPP Loan may be forgiven if they are used for qualifying expenditures, as described in the CARES Act, during the 24-week period commencing on the date of receipt of the PPP Loan proceeds.

The Company believes that funds provided by operations, existing working capital, proceeds from the Small Business Administration's Paycheck Protection Program Loan, and its bank credit agreement, should be sufficient to meet working capital needs for the next 12 months. The Company continues to monitor the impact of the COVID-19 pandemic on its results of operations. The extent to which the Company's operations may be impacted by the pandemic depends on future developments, which are highly uncertain and cannot be accurately predicted, including new information which may emerge concerning the severity, or reemergence, of the pandemic and actions by government authorities to contain the pandemic or treat its impact. Given the uncertainty associated with the COVID-19 pandemic, including potential further slowing of accounts receivable collections, decreases in orders and sales, and potential agreement modifications with customers, the afore described sources of working capital may not be sufficient to satisfy the Company's cash requirements over the next twelve months and the Company may require significant external financing. The magnitude, nature, availability and cost of future additional financing and its timing are not known.

C. Off-balance sheet arrangements

In the ordinary course of business, the Company may be a party to certain arrangements that are not reflected in the Consolidated Balance Sheets. At June 30, 2020, the Company does not have any obligations that meet the definition of an off-balance sheet arrangement that have had, or are reasonably likely to have, a material effect on the Company's financial condition or results of operations.
